

26 JUN 1959

**MEMORANDUM FOR: Acting Chairman, Committee on Exploitation of
Foreign Language Publications
United States Intelligence Board**

1. The DB/I has informed me that on 23 June 1959, the United States Intelligence Board expressed a need for a combined report on the extent to which the intelligence community has processed Soviet scientific and technical publications and their actions and efforts to make the finished materials available to the public. It desires the paper to be unclassified so that it may be delivered to the Congress and, therefore, it should cover only unclassified production.
2. The USIB has charged the Committee on Exploitation of Foreign Language Publications with the responsibility of collating the data and preparing a report for its consideration.
3. No target date has been designated, but the report should be completed as soon as practicable.
